

930
SANDMASK

PRODUCT QUALITIES

The 930 SandMask is a unique blend of vinyl characteristics, creating a product that can withstand high blast pressure up to 100 psi. This tan vinyl on a Mylar liner provides excellent impact resistance as well as a soft feel that allows for conformation over substrate irregularities and excellent weeding characteristics. This product can be used in the monument or sign industry.

- **REGULAR GRIP ADHESIVE**

Regular Grip adhesive should be used on smoothed, primed, or painted surfaces.

- **HIGH GRIP ADHESIVE**

High Grip adhesive should be used when the substrate is more porous.
